INSTANT HEALINGS IN THE DEMOCRATIC REPUBLIC OF THE CONGO

> *And immediately he received his sight, and followed Jesus in the way.*
>
> Mark 10:52

Throughout the Gospels, we see a powerful pattern: when people encountered the **truth of Jesus**, healings often followed. That same life-changing message is still moving today and reaching new corners of the world **because of our World Outreach Partners**. Through your support, the Gospel is being translated into languages that allow people to **hear and understand the truth for themselves**.

That reality is unfolding right now in the **Democratic Republic of the Congo (DRC)**. As our teachings are translated into French, people are encountering the Gospel in a way that suddenly makes sense to them—and brings transformation.

Instant Healings Are Manifesting

Recently, we spoke with the director of Andrew Wommack Ministries in the DRC, Lumière Nsungu, who shared some of the incredible fruit from their *Discipleship Evangelism* classes, where **healings are now manifesting instantly**.

Lumière explained, "We have people who receive **instant healing**, like this lady who suffered with constipation for a very long time. She came that day because she knew we had the module on healing—how to receive healing and the hindrances of healing."

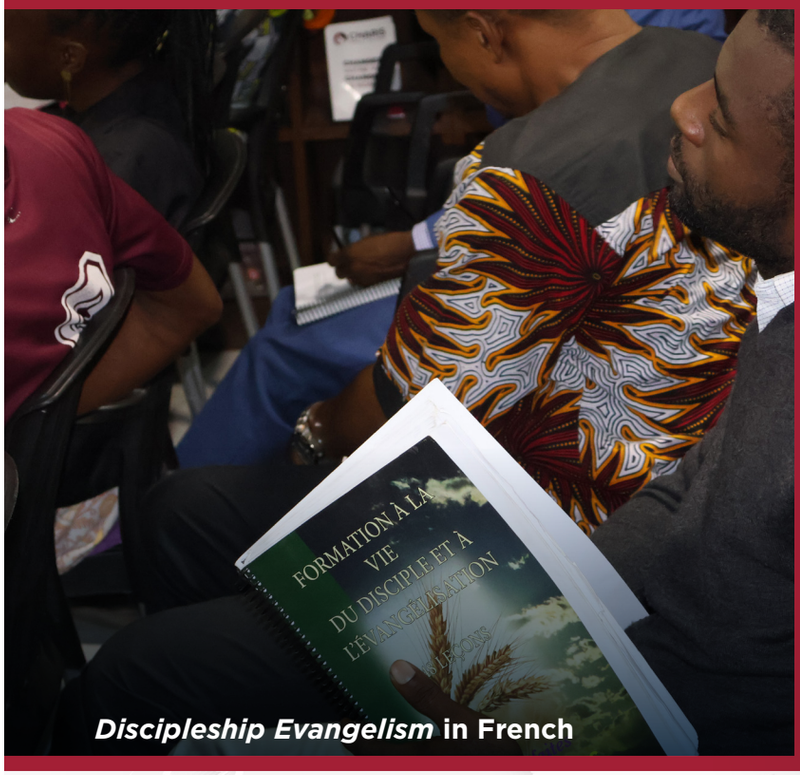

Lumière went on to say, "She came truly believing. She said, 'God, I don't just want to learn about healing—I want to be healed.' And through that lesson, she got set free."

Another testimony came from a woman who had worn **extremely thick glasses since childhood**.

Lumière shared, "She had these really thick glasses. She couldn't see without her glasses—not just read, but she couldn't even see. Through the same class on healing, she believed God for sight and received an **instant healing**. We saw her without her glasses two weeks later."

Authority over Children

Finally, there was a woman carrying a different kind of burden. Widowed and later divorced, she felt she didn't fit the image of what many considered to be a "good Christian." That label followed her, along with a quiet sense of **condemnation**. But everything began to change when she

enrolled in the *Discipleship Evangelism* course and discovered she was not only **accepted**, but also had **authority** as a believer.

Lumière explained, "She learned salvation by grace, righteousness by grace, the **true nature of God**, and finally the **authority of the believer**. This woman went home. She had an 18-year-old who had never spoken a word. She laid hands on that child, and for the first time, the child said, 'Mama.'"

Lumière added, "It's a testimony we still have to follow up on. But the woman came to us crying and said, 'I didn't know that the **power of God could flow through my hands**.'"

You Are Helping Us Disciple the Nations

These testimonies are only a glimpse of what God is doing across the Democratic Republic of the Congo. As Lumière and her team continue hosting *Discipleship Evangelism* classes throughout the nation, more and more people are encountering the **truth of God's Word**, and the number of lives impacted continues to grow.

Lumière said, "It's been really a great tool. From January 2025 until now, we've trained over **700 disciples** through *Discipleship Evangelism* across four or five cities—and that's all thanks to **partnership**."

Just as Jesus brought truth to people in the Gospels, that same message is still reaching those in need today because of our World Outreach Partners. Through your faithful support, teachings are being translated, allowing more people to encounter the truth and discover healing.

Lumière continued, "I would like to thank all our partners. Because of their generosity and their hand extended to Andrew, we are able to do so much in the country. People are discovering the **message of grace**, their lives are being transformed, and they are walking in **God's unconditional love**."

Together, we will continue the work Jesus left for us: bringing **truth and healing** to people so they can rise up and follow Him.
